

Jefferson County Public Library Library Grant Applications Policy

Policy Statement

Grant funding provides the Library with an opportunity to augment existing funding in support of library programs and services. Therefore, the Jefferson County Public Library may use grant funding to start new programs or support existing ones. All decisions to apply for, or accept grant funding for library programs and services, rest with the Senior Management Team, with the Executive Director having final approval. Grant proposals or applications that affect the library's governance policies, will be brought to the attention of the library board.

With some grants, the Jefferson County Library Foundation will submit the grant in partnership with the library because of their 501(c)(3) status. In these instances, the grant proposal will be reviewed by the Foundation's Executive Director and a decision will be made by the Foundation's Executive Director as to whether they will participate.
